

Chapter 14.2 Notes

Both particles and waves transfer energy...what is the difference in how they do this?

What is a wave?

Mechanical waves require a _____

Compare and contrast...

Transverse waves and

Longitudinal waves

What are **surface waves**?

Wave properties: **define** and **label** the following

1. wavelength:
2. crest:
3. trough:
4. amplitude:
5. period:
6. frequency:
7. velocity:
